## Internal Test Evaluation

Three internal tests are conducted under 2017 regulation and two internal tests are under 2021 regulation through a centralized examination cell.

The circular is circulated among all the staff and students about the commencement and timetable of the internal assessment. The question paper with answer key is prepared by the respective faculty based on bloom's taxonomy and reviewed by the HOD and IQAC for its standard. The answer sheets are printed by the college in the same format as that of the university format and used for internal assessment. Answer key for the respective subjects is displayed on the department notice board after the exam for students reference.

After correction by the respective faculty, the answer scripts are viewed and signed by the students. Then a progress report for every internal test is sent to the parents.

The marks obtained in IT are reviewed by the HOD and the Principal. The weak students are identified and they are given special coaching to improve their marks in the next internal test by the respective faculty. Further they are given assignments and assignment mark is also taken into consideration.

The total internal marks are uploaded in the university along with the attendance for each subject.
