Hi Pradab,

It was nice talking to you yesterday, and I hope everyone at CSI is doing well.

Humble Code is a Singapore-headquartered company with a development team based out of India.

We are a no-code product company that offers a unique platform for businesses to build applications without knowing how to code. We are currently looking for 10 interns to develop various templates for the product, and I thought I would reach out to you to check if any of the students are willing to take it up as an internship.

We will train the students before the work is assigned to them and guide them on a regular basis. Students need to have their laptop with internet connection. Time will be flexible.

Upon completion of the internship, we would issue an internship completion letter. Students can state this experience on their resumes and LinkedIn profiles.

At the end of the internship, if the company acquires more customers or secures an investment, then we do have a plan to recruit.

Please let me know if CSI would be interested in this opportunity.

Webinar Report

Date: 09.02.2024

ACTIVITY NAME: Webinar on Electrical system testing and to monitor Real-Time data.

MODE OF CONDUCT: ONLINE

OBJECTIVE:

The primary objective of the webinar was to explore:

- **Methods for Electrical System Testing:** Discussing the different testing techniques employed to evaluate the performance, stability, and safety of electrical systems.
- **Importance of Real-Time Data Monitoring:** Highlighting how real-time data collection and analysis can improve system performance and detect potential issues early.
- **Integration of Modern Technology:** Exploring tools and software used for testing and monitoring electrical systems remotely, providing users with instant feedback.

KEY TOPICS COVERED:

- Overview of Electrical System Testing
- Real-Time Data Monitoring in Electrical Systems
- Integration of IoT and Smart Technologies
- Challenges and Solutions

GUEST SPEAKERS:

Mr. F. Mohammed Fayas. M.D, Voltexa, Qatar

PARTICIPANTS:

- ✓ Number of student participants- 50
- ✓ Number of faculty participants- 10
