

CSI COLLEGE OF ENGINEERING, KETTI

Approved by AICTE, New Delhi (F.No.730-52-301 (E)ET/97 dated NOV. 17, 1997),
Government of Tamil Nadu (vide GO Ms. No, 112, dated 23.3.1998),
Affiliated to Anna University, Chennai (Tamil Nadu Act 26 of 2001 w.e.f.31.12.2001).

7.1.5 – Green campus initiatives

CSI COLLEGE OF ENGINEERING, KETTI

Approved by AICTE, New Delhi (F.No.730-52-301 (E)ET/97 dated NOV. 17, 1997),
Government of Tamil Nadu (vide GO Ms. No, 112, dated 23.3.1998),
Affiliated to Anna University, Chennai (Tamil Nadu Act 26of 2001 w.e.f.31.12.2001).

Restricted Entry of Automobiles

Permit System: Implement a system where only authorized vehicles with valid permits are allowed to enter restricted areas. This helps in managing and controlling the flow of vehicles on campus ensuring that only necessary vehicles, such as those for medical emergencies or essential services have access.

Designated Parking Areas: Clearly designate specific parking areas for students, staff, and visitors. Ensure that parking is only allowed in these areas and strictly prohibit parking in unauthorized zones. This helps in maintaining order and reducing congestion within the campus.

CSI COLLEGE OF ENGINEERING, KETTI

Approved by AICTE, New Delhi (F.No.730-52-301 (E)ET|97 dated NOV. 17, 1997),
Government of Tamil Nadu (vide GO Ms. No. 112, dated 23.3.1998),
Affiliated to Anna University, Chennai (Tamil Nadu Act 26 of 2001 w.e.f.31.12.2001).

Pedestrian Friendly Pathways

Safety and Accessibility: Design pathways that are safe and accessible for everyone, including students with disabilities. Ensure pathways are well-lit, wide enough to accommodate groups, and free from obstructions. Use ramps and tactile paving to aid those with mobility challenges. Proper signage and crosswalks at intersections will also enhance safety and accessibility.

Green Spaces and Seating Areas: Incorporate green spaces and seating areas along the pathway. This not only makes walking more pleasant but also provides students with places to relax, study, and socialize. Trees, gardens, and benches can create a welcoming environment and encourage more foot traffic.

Affiliated to Anna University, Chennai (Tamil Nadu Act 26 of 2001 w.e.f.31.12.2001).

Ban on Use of Plastic

Promote Alternatives: Encourage and facilitate the use of eco-friendly alternatives to plastic. This can include distributing reusable items such as metal water bottles, cloth bags, and biodegradable food containers. By providing students and staff with sustainable options, you can help reduce reliance on single-use plastics.

Awareness and Education: Conduct regular workshops, seminars, and campaigns to raise awareness about the environmental impact of plastic pollution and the benefits of reducing plastic use. Educate the college community on how to properly dispose of plastic items and the importance of recycling.

Affiliated to Anna University, Chennai (Tamil Nadu Act 26 of 2001 w.e.f.31.12.2001).

Landscaping With Trees and Plants

Biodiversity and Native Species: Prioritize planting native species and a diverse range of plants. Native plants are adapted to the local climate and soil, requiring less maintenance and water. They also support local wildlife, including birds and insects, promoting a healthy ecosystem. Biodiversity ensures resilience against pests and diseases, creating a sustainable and thriving landscape.

Student Involvement and Education: Engage students in the landscaping process through volunteer opportunities, educational programs, and sustainability initiatives. Creating community gardens, organizing tree-planting events, and offering horticulture courses can foster a sense of ownership and environmental stewardship among students. This not only enhances the campus green spaces but also educates students on the importance of sustainable practices.
